

Katrina has several years of experience with the school nutrition program, ensuring that students receive wholesome, quality meals as well as assisting families in need. Katrina came to Good Will-Hinckley as an Administrative Assistant after spending 8 years at Windsor Elementary School working in their main office where one of her duties included the financial side of their nutrition program.

She now splits her time between her role as Kitchen Manager and the Accounts Payable Department at GWH. As kitchen manager she supports the kitchen staff as well as takes care of the financial side of the program and is always available to assist the families of both the Glenn Stratton Learning Center and Maine Academy of Natural Sciences with any concerns or assistance they may need.

Katrina grew up in Mid Coast Maine, attending Lincoln Academy and then later on Kennebec Valley Community College. She has served as a school board member for her children's school as well as the treasurer for her local Boy Scout troop for many years.
