

Christine graduated from UMF in 1991 with a Bachelor's Degree in Psychology. Upon graduation she moved to California, where she worked in a residential facility for children in protective custody for four years. She then moved back to Maine, finding work at MSAD #75 in Topsham and at Shoreline Mental Health in Brunswick. Seeking one full time position, she accepted a job in the Spurwink Staff Intensive program where she stayed for 14+ years, moving up from Ed Tech to teacher, and eventually to Associate Director of Education.

After earning her Master's Degree in Educational Leadership from the University of Southern Maine, Christine moved into the public sector in Brunswick, where she lead the special education department at the high school and became the out-of-district liaison for or six years. Having a desire to work as a principal/director, she became the Director of the Regional Education Treatment Center in Auburn where she stayed for two years. Still having the desire to obtain more of a leadership role, she accepted the position of Special Education Director here at Good Will-Hinckley. She will be overseeing all special education students at MeANS, Glen Stratton Learning Center, Day One and Snow Pond Arts Academy in Sidney.

Outside of work, Christine is also involved with the Seeds of Independence in Brunswick, serving as its Board President. This organization nurtures, supports, teaches, and mentors youth through the steep ups and downs of adolescent life in Bath, Brunswick, Freeport, Topsham and surrounding areas.
